Dear Mr. Matthews:

Please find enclosed a copy of the Solid Waste Management Unit (SWMU) Assessment Plan. The enclosed work plan will meet the requirements of the HSWA portion of the Hazardous Waste Permit as issued by the USEPA.

This document details the on-site work as needed to determine the location of SWMUs that require further investigation. The work plan will also give details of the investigative techniques for the determination of the existence of on-site hot spots.

If you have any questions please call me at (316) 529-7560.

Sincerely,

Tom Golden
Environmental Engineer
